Honorable Sam Graves
Chairman
Committee on Transportation and Infrastructure
House of Representatives

Dear Chairman Graves,

On behalf of over 2.1 million conservative members of the Association of Mature American Citizens (AMAC), we support enactment of H.J. Res. 27 to invalidate the Biden Administration's overreaching Rule redefining "waters of the United States" (WOTUS) under the *Clean Water Act (CWA)*.

We fully agree with these key points on the intrusiveness of this rule.

- Under the rule, if a water falls under the definition of WOTUS, then any user — whether it is the Federal, State, or local government, or a private property owner — must abide by provisions in the *CWA*, which may include costly environmental compliance.
- In expanding the clear and balance definition of WOTUS of the Trump Administration in its Navigable Waters Protection Rule (NWPR), the Biden Administration's action is clearly intended to increase regulatory intrusion and federal control of waters clearly not navigable, and perhaps even intermittent streams.

We strongly support enactment of H.J. Res. 27 as an important response to this regulatory overreach of the Biden Administration.

Sincerely,

A handwritten signature in black ink that reads "Bob Carlstrom".
