

March 21, 2024

The Honorable James Lankford
Senator from Oklahoma
316 Hart Senate Office Building
Washington, DC 20510

Dear Senator Lankford,

On behalf of the 2.1 million members of AMAC - the Association of Mature American Citizens, including nearly 32,000 residing in Oklahoma, I am pleased to offer our support for the Ensuring Access to Lower-Cost Medicines for Seniors Act, S. 2129. This legislation aims to provide much-needed relief to our nation's seniors by ensuring access to affordable prescription medications.

Seniors are facing an unprecedented challenge in accessing affordable prescription drugs. Many mature Americans are on fixed incomes and are forced to make difficult choices between purchasing essential medications or meeting other basic needs. S. 2129 addresses this urgent issue by implementing much needed reforms to lower the cost of prescription drugs for seniors.

The Ensuring Access to Lower-Cost Medicines for Seniors Act includes measures to increase transparency in drug pricing and promote the use of generic medications. Expanding Medicare Part D to include coverage for generic and biosimilar drugs is a critical step in promoting affordability, accessibility, and innovation in the pharmaceutical landscape. Generic drugs offer cost-effective alternatives to brand-name medications, allowing seniors to access essential treatments at significantly lower prices. By ensuring coverage for generics and biosimilars, Medicare Part D can help seniors save on out-of-pocket expenses, alleviate financial burdens, and improve medication adherence.

Additionally, fostering the utilization of biosimilar drugs encourages competition, driving down prices and promoting innovation in the pharmaceutical industry. Overall, incorporating generic and biosimilar drugs into Medicare Part D not only benefits seniors by providing them with more affordable options but also contributes to a more sustainable and efficient healthcare system for all beneficiaries.

This bipartisan legislation represents a critical step towards addressing the high cost of prescription drugs and ensuring that seniors can access the medications that they need to maintain their health and well-being. Thank you, Senator Lankford, for introducing this critical piece of legislation.

Sincerely,

A handwritten signature in black ink that reads "Bob Carlstrom".
